Carrier for laptop  
bags and briefcases  
on a bicycle

[www.busybasket.info](http://www.busybasket.info)

**BUSYBASKET™**

**PRODUKTBESCHREIBUNG**

**HANDLEBAR HOOKS**

The basket is attached by two rubber-coated hooks to the bicycle's handlebar.

**SPACER**

The variable length spacer keeps the basket distanced from the bicycle light and serves as a secure third mounting point.

**BELT AND BUCKLE**

The bag or a briefcase is firmly and safely affixed to the basket by closing the plastic belt buckle. The load is symmetrically distributed on the handlebar.

**STEEL WIRE**

The plastic coated steel frame construction is strong and safe, with an adjustable front side.

**BUSYBASKET™**

**NEW SHAPE, NEW SOLUTION**

Busy Basket is an innovative shape bicycle carrier made of plastic-coated steel wire, adjustable to different sizes of bags.

Busy Basket can also be hung on the rear rack, like a saddle bag or pannier.

Thanks to the flexible and adjustable parts, Busy Basket suits to the different types of bags; laptop bags, briefcases, school bags, sport bags, hand bags, grocery bags. etc.

**BUSY BASKET IS FOR ALL WHO RIDE A BICYCLE TO WORK, TO SCHOOL OR TO SPORTS PRACTICE**

**FOR KIDS AGED 10 & UP**

**PROBLEM**

Have you ever tried carrying a laptop or a briefcase on a bicycle? It can be hard, cumbersome and unsafe. The bag just does not fit in the existing basket models.

sion, without hindrance while riding.

**PRACTICAL**

Easy to mount and remove, fits most standard bike models.

**MULTIFUNCTIONAL**

It can be easily adjusted to securely and firmly accommodate various bag sizes and shapes.

**SOLUTION**

Busy Basket keeps your bag safe, firmly affixed and under your supervi-
